Financial Highlights Fiscal Year 2019 For the Period Ending March 31, 2019

Summary of Revenues & Expenses by Fund Source:

- 1. Preliminary cost projections by the Affiliate Partners indicate there will not be enough Medicaid Funding to cover FY2019 needs.
- 2. Preliminary cost projections by Affiliate Partners indicate there will not be enough Healthy Michigan Plan funding for FY2019.
- 3. The SUD projections for Medicaid, Healthy Michigan Plan, Block Grant, PA2 funding and projected utilization of PA2 reserves indicates funding will be sufficient to cover FY2019 needs and is consistent with projections and delayed initiatives.

CMHPSM Strategies:

- 1. CMHPSM will continue to coordinate with the CMHSP's to review current year budgets and actual expenditures.
- 2. CMHPSM and the CMHSP's will continue revenue advocacy in relation to the FY19 rates and the FY20 rate setting with MDHHS.
- 3. CMHPSM in collaboration with the Regional Operations Committee is utilizing a shared decision model to monitor and balance FY19 expenditures to revenues including the shared risk corridor.
- 4. CMHPSM is monitoring the CMHSP expenditure overages. CMHPSM is working with the CMHSP's to ensure medically necessary care is being provided through appropriate utilization of resources in a cost effective and timely manner.
- 5. CMHPSM will utilize the most current payment data to monitor incoming revenues and to project revenues by trending traditional Medicaid Eligibles and HMP Enrollees.

Community Mental Health Partnership of Southeast Michigan Preliminary Statement of Revenues and Expenditures Notes For the Period Ending March 31, 2019

- 1 PMTO and Club House block grand funding is a pass through to CMHSP's. Revenue under budget correlates with administrative contract expenditures under budget.
- 2 Other revenue under budget due to vacant SIS assessor position and contracted assessments. Revenue is based on billings of SIS assessor expenditures. The revenue under budget correlates with administrative contract and administrative wages under budget.
- 3 Anticipated Medicaid Revenue was been amended to reflect the funding projected to provide sufficient support to provide all medically necessary services for those Medicaid entitled beneficiaries. Receipt of funding is not known.
- 4 See attached for narratives required by the Financial Stability & Risk Reserve Management Policy of a 5% variance. Actual to date for the CMHSP's is distribution of available funding to date. Please see Distribution Analysis attached.
- 5 SUD Block grant programs and PA2 initiatives are not fully implemented, most specifically State Opioid Response, State Targeted Response, Innovative Strategies and Gambling Prevention.
- 6 The Insurance Provider Assessment (IPA) has been invoiced based on fiscal year 2017 enrollments for the 1st quarter of FY2019. Adjustments are anticipated due to higher than expected eligibles. The revenue budgets were increased to reflect these increased eligibles. The IPA expenditure budget will be adjusted as well to reflect the increased eligibles in the next amendment
- 7 Salary and wages under budget due to a vacant positions.
- 8 Administrative contracts under budget due to timing, primarily contract expenditures in relation to the Block Grant Other, SIS assessment, and Gambling Prevention contracts.
- ⁹ Regional Board under expense due to low cost of meetings.

Note: Distributions are based on amounts actually received less HRA, taxes and Administration of 1.57%.

^{*} February receipts are higher than normal due to the Hospital Rate Adjustor (HRA). HRA was not included in the rates and is being paid in separate lump sum payments. The amounts withheld from partners October through January were disbursed in March.

CMHSP Financial Narratives Fiscal Year 2019 For the Period Ending March 31, 2019

Livingston

For Fiscal year 2019, Livingston CMH is projecting a \$2.1 million overall deficit. 83% of the deficit is stemming from underfunding in Autism. Livingston CMH is projecting a \$1.7 million deficit in Autism. Over the past 3 years LCCMHA has seen significant growth in the number of consumers severed as well as an uptick in services during summer months when children are not attending school. Provider costs have also increased which has been out of the CMH's control since struggles already exist with having enough providers to provider services for our growing Autism population. Livingston CMH continues to advocate for more funding to legislature. LCCMHA is also projecting a deficit of \$741,000 for FY19 in HMP. 49% of the total HMP costs stem from inpatient hospitalizations and from that only half of the consumers who are on HMP, are receiving CMH services despite our attempts to try and engage them into services or other community providers. This is a concern that HMP consumers are in need of a higher level of care than what the plan was intended for. The HMP plan was intended to be a plan for the mild to moderate consumers. The difference in what the plan was intended for and who it is actually serving is negatively affecting LCCMHA's funding, therefore causing a deficit.

Monroe

Monroe CMHA is projected to have \$30,019,807 in Medicaid and Healthy Michigan expenses for FY2019. This is over the revised allocation of \$26,813,843 by \$3,205,964. For Autism, we are projected to have \$1,861,669 in in expenses which is over \$186,179 from the revised allocation of \$1,675,490. These projections are based on the past two years actual expenses for contracted services for consumers which were roughly the same amount. Autism is based on the increase of autism consumers and services provided to them.

Monroe is aggressively looking at ways to reduce these costs where necessary. Also, the projection includes a possible increase of new consumers.

Washtenaw

For fiscal year 2019, Washtenaw CMH is currently projecting an overall deficit of \$10 million. The main areas of underfunding are for service provision to the Healthy Michigan Plan population as well as the traditional Medicaid population. For FY19, WCCMH is continuing to experience the same increased cost and utilization of medically necessary services as identified in the later part of FY16, and all of FY17 and FY18. The budget pressures continue to occur in three primary services areas, Community Living Supports, Specialized Residential Services and Inpatient Hospitalizations. Due to group home capacity challenges, individuals requiring a specialized residential placement are having to be placed out-of-county at a higher cost of service. WCCMH has engaged with its provider network to seek opportunities to open new group homes and available placements within their respective locations. For the past several years, individuals are being discharged from the state hospitals with very high acuity and require a level care that is not currently available due to capacity constraints within our CMH. Community Living Supports (CLS) services continue to be an area of concern and WCCMH continues its focus on utilization review. The CLS rate increases that were implemented as a region were necessary and still insufficient for the provider network to continue to meet the mandated and medically necessary CLS services in Washtenaw. WCCMH is monitoring the benefit eligibility for each of its 5000 consumers and is

in constant contact with MDHHS to correct benefit misclassifications. Individuals inaccurately classified as Healthy Michigan Plan continue to be a challenge and WCCMH is only able to impact eligibility for those served, not the remaining eligible individuals who do not participate in CMH services. There is an ongoing concern that these inaccuracies are affecting capitation rates for our region. Washtenaw made drastic positions cuts in FY15 and reduced an entire layer of administration. At this point, any additional positions cut would completely hinder our ability to meet the mandates for service provision.

The CMHPSM will be hosting a learning session between the statewide parity software vendor MCG and our region on May 9, 2019. MCG hopes the sessions at the PIHPs and CMHSPs allow them to gain a better understanding of how their tool will work with regional clinical practices.

Regional Update

- I attended the Monroe Town Hall event that occurred on Monday April 29. Lisa Jennings did an excellent job providing information on Monroe's current situation to those in attendance.
- The CMHPSM region has met and exceeded the statewide 95% goal for BHTEDS for the first time. The CMHPSM region has BHTEDS data on 95.14% of individuals with an SUD encounter and 99.33% with an MH encounter during FY19. There have been countless hours of tedious clean-up by staff across the region, special recognition should go out for the thousands of erroneous BHTEDS records from the old electronic health record that have been cleaned over the past months.
- The CMHPSM region continues to work together to analyze, clean and correct all of our service encounter data to ensure that we provide the most accurate possible picture of the work we're doing to the State. It is extremely important for rate setting purposes to have the most accurate and complete dataset submitted to MDHHS.
